

MIGUEL  
LARRAÑAGA ARCAY

ENGINEERING LEAD

I am a very active person, who likes challenges, enjoys being in constant movement and does not yield to adversity, but sees a new motivation to thrive over it. I like finding the solution to problems, both individually and as a group, and I have experience working with and managing a team of developers. I enjoy sharing and overcoming the challenges with my colleagues and I help create a warm, relaxed and productive work environment.

## WORK EXPERIENCE

ENGINEERING LEAD: 2023 – Today

[W E F O X](#)

Direct **lead of 10 developers** (6 java, 2 SDET and 2 react), providing both technical mentorship and career development guidance.

Collaborated closely with the Product Manager to strategize and articulate the team's roadmap, and **worked alongside architects** to define optimal technical solutions tailored to our requirements.

**Stakeholders management**, both internal and external, managing the communication with a wide range of different contexts, f.i. technical stakeholders vs non-technical.

HEAD OF TECHNOLOGY: 2018 – 2022

[D É C O R W O R L D S E R V I C E S](#)

In charge of the entire digital branch of the company. Conception, design and execution of its **digital platform**, managing the global lifecycle of the product (laser machines), from its manufacture, configuration and internal management, up to its presentation at the point of sale and after-sales.

Design and implementation of its **Cloud architecture** in **AWS** through microservices and APIs using CI/CD for the platform.

Management of the developer team, both regarding their tasks, as well as their professional improvement.

TECHNICAL PRODUCT MANAGER: 2022 – 2023

[W E F O X](#)

In charge of defining, standardizing and implementing best practices, optimizations and automations in products and tools across the company.

Managing the tasks of up to 15 devops and developers to streamline the day-to-day work of the company's technical teams, improve **security** and **observability**, and centralize the creation and definition of the cloud architecture based on microservices and **kubernetes**.

ANALYST: 2017 – 2018

DEVELOPER: 2016 – 2017

[E V E R I S](#)

DEVELOPER: Analysis, design and development of JSP using Oracle WebCenter Sites with J2EE applications. Web development and incident resolution.

ANALYST: Definition of requirements, functional and technical designs for web applications. Task management and distribution for a small group of developers. Troubleshooting **security** breaches in banking web applications.

## STUDIES

ONLINE MASTER BIG DATA AND BUSINESS ANALYTICS  
(9.47 / 10)

IMF Y CAMILO JOSÉ CELA  
2017 - 2019

MASTER IN ASTROPHYSICS, PARTICLE PHYSICS AND  
COSMOLOGY (8.59 / 10)

UNIVERSITAT DE BARCELONA  
2013 - 2015

ERASMUS IN DINAMARCA  
(3 HONOR MENTIONS)

SYDDANSK UNIVERSITET  
2011 - 2012

CIVIL ENGINEERING  
(7.34 / 10)

UNIVERSIDADE DA CORUÑA  
2008 - 2013
